

EDUCATION

BSc Computer Engineering

Al-Farabi Kazakh National University, GPA: 3.52 / 4.0

Sep 2018 - Jun 2022

Almaty, Kazakhstan

MSc Computer Engineering

Al-Farabi Kazakh National University, GPA: 3.67 / 4.0

Sep 2022 - Jun 2024

Almaty, Kazakhstan

SKILLS

Programming Python | R | SQL | JavaScript | Pandas | NumPy | PostgreSQL | Oracle | BigQuery | Git
Analytics & Tools Power BI | Tableau | D3.js | ArcGIS | QGIS | GeoPandas | scikit-learn | ETL | Kibana | BPMN

EXPERIENCE

Alatau City Garant

Jul 2024 - Present

Data Analyst

Almaty, Kazakhstan

- Built a geospatial risk concentration model visualizing insured objects by location and value to prevent dangerous coverage clusters, resulting in +23% revenue improvement in targeted cities
- Developed a manager performance model identifying agents with poor risk selection, contributing to +30% revenue increase in one branch after corrective action
- Built executive dashboards used by senior management for weekly planning across underwriting, sales, and operations teams
- Delivered weekly reports on client portfolios, accident statistics, claim causes, and product profitability including claims frequency, loss ratio, and premium vs. loss analysis

Keyhorse LLP

Oct 2022 - Jul 2024

Data Analyst

Almaty, Kazakhstan

- Redesigned service workflows for local government bodies covering water supply, heating, electricity, and cadastral services, mapping full process chains from citizen request to final delivery
- Connected citizens, government, and 200+ organizations on a single platform, moving 60% of all government service requests online within 3 months of launch
- Conducted bottleneck analysis identifying steps causing the longest delays and produced analytical reports for ministry-level stakeholders on service adoption and operational efficiency

Quick Money LLP

Apr 2020 - Jun 2022

Data Scientist

Almaty, Kazakhstan

- Contributed to building an automated credit scoring system processing 10,000+ loan applications per day nationwide, replacing manual review by managers and credit committees with instant online decisions
- Non-performing loans decreased by 40% following model deployment, significantly reducing the human factor in lending decisions
- Designed feature engineering and validation pipelines across large-scale customer profile datasets to support accurate and reliable scoring

ACT Kazakhstan

Nov 2018 - Mar 2020

Data Analyst

Almaty, Kazakhstan

- Built Power BI dashboards and automated Python reports delivering weekly KPI visibility to management, replacing manual Excel reporting across multiple client companies
- Developed forecasting models for demand, revenue trends, and operational performance across various industries
- Conducted customer and employee satisfaction surveys and presented findings directly to senior stakeholders at client organizations.
